

JANE OF THE JUNGLE

She's been compared to Gandhi and Mother Teresa for her work with the environment and chimpanzees. Now, legendary conservationist Jane Goodall has turned her hand to design and collaborated with US leisurewear brand Gant to spread the message of hope. For every organic cotton Gant "Hope" bag sold, 25 trees will be planted to counter rainforest destruction in Gombe National Park in Tanzania. Carry with pride.

THIS BAG
MAKES
THE JUNGLE
GROW.

Bag "Hope",
\$129, by Gant,
03 9340 5200.

Do Everything.
Love as much as you can,
it may hurt but it helps us
grow. Give all you have.
You may be poor but you
will be content. Always
forgive. Your heart cannot
afford not to. Teach what
you know and learn what
you don't.
Stay open to all.

TEA TOWEL, \$22, by Fatty
DeMonsey, 0403 956 154. Made
from hemp and organic cotton,
designer Sam Donovan hand-prints
messages using water-based inks.

green GUIDE

MADISON'S GATEWAY TO GREEN

Scrub up nicely

vegetable fibres and
hand silk-screened with
water-based paint.

WASHER WOMAN

Who knew a tea towel could have so much influence? With messages to make you smile and serious eco-credentials, they make dish-drying a joy.

Plastic fantastic

Australians are among the best plastic recyclers in the world. We recycle enough plastic each year to fill the Melbourne Cricket Ground five times over. Source: Plastics and Chemicals Industries Association Survey.

SHARE THE SPIRIT

Outback Spirit Rejuvenating Water®, \$2.49, is a great example of ethical trading. Ingredients such as lemon aspen and wild rosella are sourced from indigenous communities and proceeds support research into the nutritional qualities of bush foods. →
